

East Fork Virgin River Assessment Notes

March 25, 2009

Update on March 11, 2010

East Fork Virgin River (17)

Assessment Method: Fixed, based upon irrigated acres owned.

Minimum assessment ~~\$3.00~~. *Now \$0.00 STARTING IN 2010*

No water used, minimum still assessed.

Mike's Notes:

The Water Commissioner tracks water use at each diversion and records these measurements.

However irrigated acreage is fixed and that is how the accounts are billed each year.

Spreadsheet should be developed to record acreage, and monitor water use based on Weir measurements.

In 2009, There has been continued discussion about including others in the valley and tributaries that require water monitoring but are currently not billed.

This will be explored with new WC that comes on line in 2011. (Jeff Medlin)

Examples are Long Valley Land Co, was Mark Johnson, now Terry Clark (added in 2009)

In 2010, the account minimum was raised from \$3 to \$50.

Larry Barnes*,

John Flatburg*

Darwin & Ellen Lamb (KOA)*

Charles Spencer*

Stout Canyon- Heatons

Muddy Creek, Eric Esplin Has a dry dam diversion right and not much water flows after the run off season.

*we are adding for 2010:
